Professional Summary

Full Stack Software Engineer with 3+ years shipping features end-to-end — from Flutter/React/Angular UI through REST APIs to PostgreSQL/MySQL-backed services across .NET, Java/Spring Boot and Laravel. Built production systems used by 13,000+ employees, with a 10–20% reduction in processing TAT. **Comfortable owning a feature from database schema to UI across four different production stacks.**

Skills

- Languages:** Java, C#, Dart, PHP, JavaScript, Python, Go
- Backend:** Spring Boot, .NET 8, Laravel, REST APIs, gRPC, Spring Data JPA, Dependency Injection, Gradle
- Frontend:** Flutter, Flutter Web, React.js, Angular, Riverpod, HTML5, CSS3
- Databases & Caching:** PostgreSQL, Redis, MySQL, Firestore, Firebase Realtime Database, Hive, SQL
- Cloud & DevOps:** AWS (EC2, ECS, EKS, Lambda, S3, Step Functions, CloudWatch), Docker, Jenkins, Kubernetes, CI/CD
- Architecture & Practices:** Clean Architecture, Repository Pattern, MVC, Agile, Scrum
- Integrations & Tools:** Google Gemini API, Firebase, Grafana, Dynatrace, CleverTap, Azure AD, Google Maps, Git, Postman, GitHub Copilot, Figma

Experience

ICICI Lombard GIC. LTD. Associate Software Engineer Developer	Mumbai, Maharashtra, India / Bengaluru, Karnataka, India May 2025 – Present July 2023 – May 2025
--	--

ILOneForce — Field Force Management Platform

- Owned end-to-end **Flutter UI development for the Attendance module**, used by **13,000+ employees**, from initial design through production release and ongoing maintenance.
- Developed **Lead Management, Calling, Gamification and Contest** workflows using Flutter, including UI development and database-related optimizations.
- Optimized lead data access by eliminating unnecessary joins and redundant data fetching, reducing average query response time and easing database load during peak attendance-marking hours.
- Designed a **ranking-based gamification system** and developed leaderboard interfaces using modern glassmorphism-based UI patterns.
- Built a **.NET AWS Lambda workflow** integrating PostgreSQL (via stored-procedure calls) and Dynatrace APIs to process application usage, generate reports and automate email delivery through SMTP.
- Integrated **CleverTap** for notifications and broadcasts and **Firebase Analytics** for application usage tracking, giving the product team visibility into feature adoption.
- Built a **real-time chat application end-to-end** using Flutter, .NET, Firestore and Firebase Storage, including database design and Firebase custom-token authentication.
- Contributed to database design and UI development for a **Contest module delivered end-to-end within 2 weeks**.

ILConnect — AI-Powered Online Reputation Management Platform

- Contributed to **PostgreSQL database design and application architecture** for ILConnect, an online reputation management platform, defining schema structure and service boundaries to support scalable news-sentiment processing.
- Developed **.NET APIs with stored-procedure-based PostgreSQL integration**, calling **Google Gemini** for news sentiment analysis and AI-response handling.
- Owned **end-to-end Flutter Web UI development**, including User Management, workflows and Light/Dark mode.
- Integrated **Microsoft Azure Active Directory (AAD)** for authentication and access management, enabling single sign-on and role-based access control across the platform.

NinjaCRM — CRM & Lead Management Platform

- Optimized complex **MySQL queries with multiple joins** across Insurance, Sales and PSF modules, reducing processing **TAT by 10–20%**.
- Migrated legacy **Core PHP modules to Laravel**, replacing raw SQL with ORM-based queries to improve maintainability and performance, restructuring parts of the codebase around MVC conventions.
- Developed **AWS EC2 cron jobs and automated PHP scripts** for lead creation, updates and nightly processing, replacing manual data-entry steps that previously required daily operational support.
- Developed **React.js dashboards**, enhanced Grafana dashboards with filters, and created Docker/YAML configuration to standardize application setup and support future EC2-to-ECS migration.
- Maintained **Python scripts** to calculate vehicle service due dates and predict next-service type (free or paid) and insurance expiry timelines, applying domain knowledge of vehicle servicing cycles to the underlying business logic.

ILOzone — Office Facilities Management Platform

- Developed and enhanced **Flutter workflows** for an enterprise employee experience platform supporting food ordering, visitor management, pantry services and employee transportation.
- Integrated Flutter modules with **Java/Spring Boot REST APIs and PostgreSQL-backed services**, working across API contracts, transactional workflows and backend data flows.
- Contributed to end-to-end feature integration and debugging across the mobile application and **Java/Spring Boot backend ecosystem**.

Education

PVPP College of Engineering (Affiliated to University of Mumbai) Bachelor of Computer Engineering, GPA: 8.65 / 10	Mumbai, Maharashtra, India Dec 2020 – Jun 2023
Vidyalankar Polytechnic (Affiliated to Maharashtra State Board of Technical Education) Diploma in Computer Engineering, Percentage: 90.63%	Mumbai, Maharashtra, India Aug 2017 – Nov 2020

Projects

- URL Shortener | React.js, Go, MySQL, Redis | Personal Project** Ongoing
Building a link management service with **custom slug generation, click analytics, and expiry controls**. Backend in Go with MySQL persistence; React.js dashboard with Redis caching. Targeting **sub-50ms redirect response time**.
- JIRA Clone | Java, Spring Boot, Gradle, PostgreSQL, Redis, JWT, Angular, WebSockets | Personal Project** Ongoing
Building a project management platform using Java, Spring Boot and Gradle — **Controller-Service-Repository architecture with DTO validation and global exception handling**. Uses PostgreSQL and Redis for data/session management, with JWT authentication, sprint planning, and a drag-and-drop kanban board.

Achievement

- Awarded **High Flier Certification (top 10% of engineers company-wide)** at ICICI Lombard GIC Ltd. for exceptional performance with dedication and commitment in FY 2024–25.
- Awarded **One IL One Team Awards – Team Excellence Award** for contributions reflecting collaboration, adaptability and growth, per ICICI Lombard’s One IL One Team culture (FY 2025–26).
